

Florida Reviewer's Guide

Nystrom Young Citizens

Nystrom Education | Social Studies School Service

Description

Nystrom Young Citizens is a hands-on program sold as a class kit. The program contains print and digital components as well as manipulatives.

You can access PDFs of the print components and images of the manipulatives on the [Florida State Reviewer's Site](#).

Digital Platform

Nystrom Young Citizens digital platform is home to the digital components, which mirror the print format. For example, the digital versions of the Teacher's Guide, Student Book, and other components include the same content as the print versions. The digital versions of the maps and globes are an interactive format.

We recommend that you review the program through the digital platform, which may be easier than using the PDFs. To access the digital platform for your grade, use the following credentials:

Website: https://yc.socialstudies.com/log_in

Username:

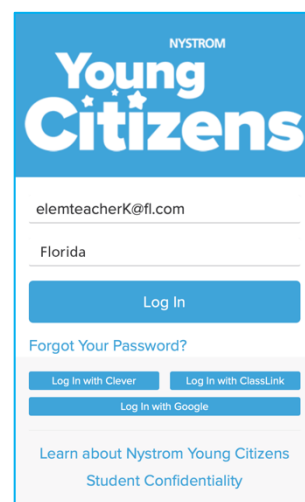

Grade K: elemteacherK@fl.com | Grade 1: elemteacher1@fl.com

Grade 2: elemteacher2@fl.com | Grade 3: elemteacher3@fl.com

Grade 4: elemteacher4@fl.com | Grade 5: elemteacher5@fl.com

Password: Florida

(Note: The "F" in Florida is case sensitive.)

Guided Tour After you've logged in, click on the Welcome Tour button for a quick guided tour of the digital platform.

Teacher Materials Click on the Teacher Materials icon in the dashboard to access an eBook of the Teacher's Guide and chapter-by-chapter teaching materials, including handouts.

Student View Click on the Student View icon in the dashboard to view the student materials, including the activities, Student Book, library of leveled student readers, Patriots' Handbook (founding documents for Grade 5), and atlas. The Patriots' Handbook appears in print format at the back of the Student Book. The atlas includes the maps of Florida.

Correlations

The Florida State Reviewer's Site includes additional IM7 correlations for each grade level (the state portal limits the number of characters and URLs that can be entered for IM7). To view these additional correlations, [visit the site](#) and click on the IM7 correlation links to access the documents.
